

Webinar: Florida's Innovation Hub

Brian E. Curtin

BRPH Companies, Inc.
CEO and Chairman of the Board

Brian Curtin, P.E. is CEO and Chairman of the Board for BRPH Companies, Inc., an employee-owned international architecture, engineering, construction and program services firm. Curtin has been with the firm since 1990, assuming positions of increasing responsibility as Director of Operations and Executive Vice President. Under his leadership, the firm has more than doubled in size and has expanded nationally and internationally.

Curtin is responsible for business strategy, financial performance, successful execution and growth for BRPH. Working with the executive team, he sets the strategic direction for BRPH through the enhancement of the client service experience, management of current and prospective client relationships and capacity, as well as strengthening our market position through the continuous development of efficient management processes.

Curtin provides oversight to team leaders on projects across all market sectors, including aviation, federal, commercial, and industrial projects. His leadership is based on an in-depth technical background and thorough understanding of manufacturing and assembly facilities.

Curtin has served as principal-in-charge on a number of complex, large-scale projects in recent years including:

Boeing 777X Composite Wing Center;	Everett, Washington
The Boeing 787 Dreamliner South Carolina Expansion Program;	North Charleston, South Carolina
Gulfstream Buildings X and Y Manufacturing Facilities;	Savannah, Georgia
Embraer Engineering & Technology Center;	Melbourne, Florida
Embraer Customer Delivery Center & Production Facility;	Melbourne, Florida
Triumph Aerostructures Manufacturing Facility;	Red Oak, Texas
Bombardier Aerospace Global 7000 Manufacturing Facilities;	Ontario, Canada

Lockheed Martin C-130 Facilities;	New Delhi, India
Lockheed Martin Orion Spacecraft Final Assembly/Integration Facility;	KSC, Florida
Boeing CST 100 Spacecraft Final Assembly and Integration Facility;	KSC, Florida
L3Harris High Technology Center;	Palm Bay, Florida
Southern Command HQ	Miami, Florida
USAF Technical Applications Center;	Patrick AFB, Florida
Waukesha Electrical Systems;	Waukesha, Wisconsin
EFACEC Plant Expansion	Rincon, Georgia

A frequent contributor to a number of business and industry publications, Curtin has been published in *Consulting/Specifying Engineer Magazine*, *Florida Construction Bulletin* and *The Zweig Letter*. He is a recipient of the *Florida Governor's Energy Award* and the *Engineering Excellence Grand Award*, *Orlando Business Journal's CEO of the Year award*, and his projects have received recognition from the Associated Builders and Contractors Eagle Awards program, Engineering News-Record Top Projects, and the Florida Institute of Consulting Engineers (FICE).

Community and professional involvement are integral part of Curtin's role within the firm. He is a member of several boards including the Economic Development Commission of Florida's Space Coast, Aerospace Industries Association, Orlando Economic Development Commission and Enterprise Florida. Curtin also personally and professionally supports Junior Achievement as a board member, as well as Habitat for Humanity. Curtin holds a Bachelor of Science degree in Mechanical Engineering from the University of Maryland. He is LEED accredited by the U.S. Green Building Council and a registered professional engineer in Florida, California, Alaska and Hawaii. Curtin holds a membership with the National Council of Examiners for Engineering & Survey (NCEES) and is National Association of Corporate Directors (NACD) Directorship Certified.
